PERSONAL STATEMENT

My extensive familiarity with aesthetics in an ever-changing world of technology comes from twelve years of experience, including positions as a Art Director and a Product Designer in a startup. Choosing to become a Digital Designer gave me a great and unique opportunity to simultaneously apply a multitude of skills in a single project. I use the current industry standard tools and creative methods. I work internationally and can relocate if necessary.

CHARACTER

Professional
Introverted
Calm and Collected
Focused
Analytical
Self-Taught
Flâneur
Optimist
