Design sprints

## EXPERIENCE

### Senior Product Designer - Takeaway.com

2019 - Present

Responsible for establishing a Design System

### Senior Product Designer - Delivery Hero AG

2017 - 2019

On January 2017 I became the first dedicated product designer for Lieferheld. I later joined the Delivery Hero Germany migration team and was in charge of setting up the design system. I worked closely with the frontenders, building components using ReactJS. As we hired more designers I helped to establish workflows and processes that made production more efficient.

### Freelance Product Designer - Multiple Clients

2015 - 2016

As a freelance designer, I was focused on digital products and services. I was also a dedicated designer for the Swiss company Origammi, working on an e-commerce CRM.

### CNJ Digital - Web Designer

2013 - 2015

### Freelance Web Designer - Multiple Clients

2006 - 2012
